

Poster

Lowest Zone Ponding Area – plants like wet or moist soil

Middle Zone Depression Area - plants like a little dryer, or wet to dry soil

Highest Zone Upland Area - Plants prefer drier soil

Plants have a National Wetland Indicator to show the kind of soils they prefer as a home:

- **Highest Zone Plants = Facultative Upland (FACU)**
- **Lowest Zone Plants = Facultative Wetland (FACW)**
- **Middle Zone Plants = Facultative (FAC)**

Worksheet
